Dr. John J. Tafelski
Assistant Superintendent for
Curriculum and Instruction

Hello Parents,

In 2017, we were able to offer the school community educational pricing on Chromebooks and save Allen Park families money on technology purchases for their students. We sold over 60 devices and have had a lot of requests following that offer.

We are excited to announce that with our most recent bulk purchase, we again are able to offer families our discount on new devices! Our 5 year strategic plan includes a goal that states *“APPS will provide all students and staff access to digital learning tools at school and home that will enhance the district curriculum and address instructional needs.”*

Offering affordable technology that is accessible to students everywhere is one way we hope to accomplish this goal. Currently we are offering the Lenovo 100E Generation 2- with 4 GB RAM. The price you pay is \$170. That is a 25% savings over the current Amazon price.

If you are interested, please e-mail me at chromebooks@appublicschools.com, and I will be in touch with you regarding payment options and delivery of the machines. We will be taking orders until November 22. We do not know when we will be able to offer this again- we only extend these opportunities when our pricing beats Amazon and other retailers.

We recommend the Lenovo 100E, but we have used and purchased others listed below, and they work well with our network. They are available at Amazon (although prices change depending on supply and demand) if you would prefer something a little more durable or powerful:

Model	Cost
Asus C202	\$218.00
HP 11 G5	\$199.00

We have over 3000 district devices and we are continuously adding to that number. Our goal is to offer 1 to 1 access at school. The option to purchase your own device would allow your student consistency with technology at school and at home. We hope you will take advantage of our offer, or purchase another device to ensure access for your child everywhere!

Educationally yours,

Dr. John J. Tafelski
